Burpee's Advance Offer of Sweet Peas for 1914.

We are acknowledged as

Headquarters for Sweet Peas in America.

Bound by these prices only for quantities so far as accepted.

For cable words for quantities refer to our GENERAL WHOLESALE CATALOG OF 5TH EDITION A. B. C. CODE,—but when convenient we prefer our own code.

Since the first crop of Sweet Peas in America we think the yield of seed has never been smaller than crops just harvested considering acreage planted. If we had not located our own ranch in the fertile Lompoc Valley several years ago, we should now be obliged to decline orders for many of the Spencer varieties. Fortunately, for ourselves and customers, Mr. Lonsdale, early last winter anticipating a "dry year," made arrangements for the sinking of a deep well at Floradale, and this well is solely responsible for our being able to offer re-selected seed of Spencer Sweet Peas at moderate prices.

We know by a personal inspection of the growing crops that the quality of the Sweet Pea seed offered of both Spencer and Grandiflora types will surely give the most critical planters entire satisfaction.

Superb Sweet Peas of the "Spencer" Type.

All of the Best Re-selected Strains.

The "Spencer" Type of Sweet Peas.

SPENCER SWEET PEAS are a great specialty with us! We were the first to grow the seed in America—the stock having been entrusted to us before introduction, even in England, of the original *Countess Spencer*. We have grown "the original Beauty" and its many "sportive" children with painstaking care each season since. There are but few other growers,—either in England or America,—who can supply an equal assortment of *True RE-SELECTED "SPENCERS"* that are uniformly of such choice quality. Seedsmen and planters generally can see how superior our stocks now are by the trials at FORDHOOK FARMS next June or July, while those who may be in California are invited also to inspect the growing crops at our FLORADALE FARM in the beautiful Lompoc Valley.
